Continuing Education System

Precision Ladders Registered Provider Program Summary Handout

Provider: **Precision Ladders**

Length: **1 Hour**

AIA Course Number: **IPL05B**

Credits: **1 AIA HSW CE Hour**

Course Title: **Access Ladders: OSHA, ANSI, and IBC Design Criteria and Applications**

Description

This course will discuss different types of ladders and various applications in which they can be safely used. The designer will also learn about codes and minimum requirements necessary to adhere to the standards dimensionally.

Learning Objectives

By completing this course the design professional will be able to:

1. Identify the types of fixed access ladders
2. Describe applications for each type of fixed ladder
3. List the applicable building code considerations
4. Accurately specify the ladders needed for a project based on the application and applicable building code

Method of Delivery

The course is offered to design professionals in a lunch and learn classroom setting. The course is presented in PowerPoint.

Cost to Participants

The course is sponsored by the manufacturer and is therefore offered to designers at no cost.
